**Re: Marine Terminal 1 South Site  
Risk Assessment Work Plan  
ECSI No. 2642**

Dear Mr. Struck:

The Port of Portland (Port) has prepared the draft Risk Assessment Work Plan for the Marine Terminal 1 (T1) South Site. The risk assessment is being performed to address Oregon Department of Environmental Quality (DEQ) comments on the T1 South Remedial Investigation Report, included in your letter dated July 26, 2001. Three copies of the draft T1 South Risk Assessment Work Plan are submitted to DEQ for prompt review and approval. Groundwater monitoring data from the September 2001 sampling of the recently installed monitoring wells will be forwarded to DEQ when available.

Please contact me at (503) 944-7533 with any questions.

Sincerely,

Joe Mollusky  
Environmental Project Manager  
Property and Development Services
